Please contact your TV manufacturer for further information.

**WORLD WRESTLING
FEDERATION®**

YOU CAN BECOME KING OF THE RING

It's one of the most grueling tests of a wrestler's skills and savvy! It's an event to which wrestling fans around the world can look to determine the best wrestler in the World Wrestling Federation®! It's a brutal, no-time-out, eight-man single elimination tournament that causes the best of the best to wrestle to the very limits of their abilities—and beyond!

It's the event everyone's been talking about — the King of the Ring™ tournament — and you've been entered!

You can be any one of 10 sensational World Wrestling Federation® Superstars, including Macho Man Randy Savage™, Bret "Hit Man" Hart™, the immortal Hulk Hogan™, the Narcissist Lex Luger™, mighty Razor Ramon™ and massive Yokozuna™ to name a few... or create your own mighty World Wrestling Federation® Superstar!

Warm up with one-on-one, tag team or tournament matches. Then step up to the greatest challenge of your wrestling abilities ever devised. Try to ascend the throne and become King of the Ring... if you dare!

PREPARING TO ENTER THE SQUARED CIRCLE

1. Make sure the Nintendo Entertainment System® power switch is OFF.
2. Insert the World Wrestling Federation® King of the Ring™ Game Pak as described in your Nintendo Entertainment System® instruction manual.
3. Turn the power switch ON. When you see the World Wrestling Federation® King of the Ring™ logo appear on the screen, press the START BUTTON.

BEFORE YOU STEP THROUGH THE ROPES

Once you've passed the title screen, the computer will ask you to set the following game options. Use the UP and DOWN Control Pad to highlight your selection and press the A or B BUTTON to make your choice.

One player vs. computer or two players.

One-on-One, Tag Team, Tournament or King of the Ring™.

Easy, Medium or Hard skill level.

A **One-on-One** match is a one-fall match that pits two wrestlers against each other. The first wrestler to pin his opponent to the mat for a three-count administered by the referee is the winner. Because World Wrestling

Federation® wrestlers are in peak condition, they must be worn down
4 before they can be pinned.

A **Tag Team** match pits teams of two wrestlers against one another. The rules are similar to those of a One-on-One match except that a wrestler can tag his teammate to replace him in the ring by pressing the SELECT BUTTON.

Tournament mode puts your wrestler in a battle for the prize every wrestler covets — the World Wrestling Federation® Championship Belt! But winning it won't be easy. Nine ferocious challengers stand in your way, and they're not about to go down without a fight! Each tournament match is a One-On-One, one-fall bout. Defeat each of your opponents, and you become World Champion!

The **KING OF THE RING™** tournament is one of the toughest but most prestigious events in the World Wrestling Federation®. It's an eight-man single elimination tournament to determine the best wrestler in the World Wrestling Federation®. Each match is a one-fall bout, where only the winner continues onward. The wrestlers have been seeded in two brackets around the top two contenders. They must fight their way through the bruising quarter-finals, then the vicious semi-finals, and then, the ultimate match, the finals—where the winner is rewarded with the World Wrestling Federation® crown, and the loser goes home empty-handed!

Once you've chosen your options, press the START BUTTON. You will then be able to choose your wrestler from among 10 powerful World Wrestling Federation® Superstars, or you may customize your own wrestler! Use the LEFT and RIGHT CONTROL PAD to scroll through the wrestlers, then press the A or B BUTTON to select him. To customize your own wrestler, select the wrestler labeled "you."

CUSTOMIZING YOUR OWN WRESTLER

Should you choose to create a custom World Wrestling Federation® wrestler, the first thing you'll want to do is name him. Move the cursor LEFT and RIGHT to the appropriate letter and use the UP and DOWN CONTROL PAD to change it. When your wrestler's name is correct, pressing the A BUTTON will lock it in and permit you to move on to the next stage of customization.

Each World Wrestling Federation® wrestler has specific attributes such as strength, speed and stamina that dictate his fighting style and make him the wrestler he is. When you customize your own wrestler, you are given a specific number of points to divide between these attributes to create your own ultimate wrestler.

Use the UP and DOWN CONTROL PAD to choose the attribute you want to adjust, then move LEFT and RIGHT to increase and decrease the value for that particular category. Point values for the other categories will change in proportion to any changes you make. When your wrestler is complete, press the START BUTTON.

NOTE: After winning a tournament match, you will be given additional points to add to any category you choose!

FRONT ROW RINGSIDE

Here's a close-up look at the ring where your World Wrestling Federation® wrestlers will compete:

BASIC MAT SKILLS

To get started on your quest to become King of the Ring™, you need to have a strong foundation in the basics of the sport:

To move around the ring, use the CONTROL PAD.

To exit the ring, walk into the ropes on the left or right side of the ring.

Luring your opponent outside the ring can be a useful strategy, but be sure to return before a 10 count elapses, or you will be disqualified.

To return to the ring, walk into the apron on the left or right side of the ring.

To run left or right across the ring, move LEFT OR RIGHT while simultaneously pressing the A BUTTON.

To punch your opponent, press the A BUTTON.

To kick your opponent, press the B BUTTON.

To lock your opponent in a grapple, walk into him face-to face.

While you are grappling with your opponent you have several choices of offense attack:

Headbutt your opponent by pressing the A BUTTON.

Body slam your opponent by pressing the B BUTTON.

Throw your opponent by pressing the A BUTTON and a CONTROL PAD simultaneously.

8 Suplex your opponent by pressing the A BUTTON and the UP CONTROL PAD.

STEPPING UP YOUR OFFENSE

Once you've mastered basic mat skills, you can move on to more high-impact moves and maneuvers that will enable you to mount a more sophisticated and dangerous offensive attack:

Run toward your opponent and press the B BUTTON to deliver a flying dropkick!

Run toward your prone opponent and press the A BUTTON to pound him with a flying elbowdrop.

THINK DEFENSIVELY

There are several defensive moves you should keep in mind in the course of a particularly heated match: If you are standing and your opponent is running toward you, press the A BUTTON to clothesline your opponent or the B BUTTON to hip-toss him.

AERIAL ATTACK!

Here's how to launch an attack on your opponent from the top turnbuckle: First, climb to the top turnbuckle by moving your wrestler into a corner of the ring and pressing the CONTROL PAD toward the turnbuckle. To jump from the turnbuckle, press the A BUTTON. To guide your wrestler's path through the air, use the CONTROL PAD.

GOING FOR THE PIN

When your opponent is down on the mat and his energy level is low, it's time to move in for the pin and the win! But first you want to make sure he's really ready for the pin. To do that, you may want to elbowdrop him (press the A BUTTON) or stomp him (press the B BUTTON) a few times. To try for the three-count, press the CONTROL PAD toward him and the A BUTTON.

NOTE: If you find yourself being set up to be pinned, try pressing the A and B BUTTONS to get up before your opponent drops on top of you!

MR. PERFECT™ 6'4", 263 lbs.

BRET HIT MAN HART

BRET "HIT MAN" HART

6'1", 234 lbs. Calgary, Alberta, Canada

The Hit Man is one of the most skilled technical wrestlers the sport has ever known. His Sharpshooter leg grapevine has helped guide him to the World and Intercontinental titles. He is also the current King of the Ring™.

Shawn Michaels

Originally from Cuba, this cocky competitor seems to always be chewing on his trademark toothpick. His finishing move is a punishing backdrop he calls, appropriately, the Razor's Edge.

BAM BAM BIGELOW™ 6'6", 360 lbs.
Asbury Park, New Jersey

Incredibly agile for such a big man, Bam Bam uses an aggressive fighting style to take advantage of his opponents. This aggressiveness is demonstrated in everything he does, from his favorite move, a headbutt off the top rope, to his bald head that has been tattooed with flames!

24

THE UNDERTAKER™ 6' 10 1/2", 328 lbs.
Death Valley

Managed by the macabre Paul Bearer™, the Undertaker™ has a strange fascination (obsession?) with death. His ashen complexion, his black attire and his cherished urn combine to make him a most ominous opponent! Despite his unconventional appearance, however, he is serious about his quest for the World Wrestling Federation® Title. Deadly serious.
